\*\*Morningstar rates funds from one to five stars based on how well they've performed (after adjusting for risk) in comparison to similar funds. Within each Morningstar Category, the top 10% of funds receive five stars, the next 22.5% four stars, the middle 35% three stars, the next 22.5% two stars, and the bottom 10% receive one star. Funds are rated for up to three time periods— three-, five-, and 10 years—and these ratings are combined to produce an overall rating. Funds with less than three years of history are not rated. Ratings are objective, based entirely on a mathematical evaluation of past performance. They're a useful tool for identifying funds worthy of further research, but shouldn't be considered buy or sell recommendations.

Distributions are at the discretion of the Manager and/or Prudential Singapore and there is no guarantee, assurance and/or certainty that any distribution will be made and if distributions are made, such distributions are not in any way a forecast, indication or projection of the future or likely performance / distribution of the Fund. The making of any distribution shall not be taken to imply that further distributions will be made. The Manager and or Prudential Singapore may also vary the frequency and/ or amount for distributions made.
